

MEET YOUR NEW SHOP MVP!

Designed for speed, strength, and reliability, this heavy-duty tire changer is built to handle everything from passenger vehicles to light trucks with confidence. Featuring dual-cylinder clamping, a two-way rotating variable-speed turntable, an adjustable bead breaker, and an integrated bead blaster, it delivers fast, efficient tire service while helping protect today's modern wheels with plastic inserts and reinforced components. With a rugged steel construction, upgraded mount head, built-in inflator gauge, and 42-inch wheel capacity, it's the dependable workhorse your shop can count on day after day.
